An essential seating option for any outdoor patio furniture set, the comfortable style and convenient storage of the Suncast ELEMENTS Club Chair make it the perfect complement to a range of outdoor furniture spaces.

Suncast ELEMENTS Club Chair with Storage, Java

Acknowledgments I am grateful to Nima Hoda, who spent a summer tirelessly proofread-ing many of the chapters in this book; to the students in the Fall 2011

Open Data Structures

The Java collections framework (JCF) is a set of classes and interfaces that implement commonly reusable collection data structures.. Although referred to as a framework, it works in a manner of a library.The JCF provides both interfaces that define various collections and classes that implement them.

Java collections framework - Wikipedia

Resizable-array implementation of the List interface. Implements all optional list operations, and permits all elements, including null.In addition to implementing the List interface, this class provides methods to manipulate the size of the array that is used internally to store the list. (This class is roughly equivalent to Vector, except that it is unsynchronized.)
