

the evolution of human pdf

Human evolution is the evolutionary process that led to the emergence of anatomically modern humans, beginning with the evolutionary history of primates “ in particular genus Homo “ and leading to the emergence of Homo sapiens as a distinct species of the hominid family, the great apes. This process involved the gradual development of traits such as human bipedalism and language, as well as ...

Becoming Human

The timeline of human evolution outlines the major events in the development of the human species, Homo sapiens, and the evolution of the human's ancestors. It includes brief explanations of some of the species, genera, and the higher ranks of taxa that are seen today as possible ancestors of modern humans.. This timeline is based on studies from anthropology, paleontology, developmental ...
