the fat pigeon flies pdf

The name of the taxonomic order, Coleoptera, comes from the Greek koleopteros (κόλεπτερος, koleopteros), given to the group by Aristotle for their elytra, hardened shield-like forewings, from koleos, sheath, and pteron, wing. The English name beetle comes from the Old English word bitela, little biter, related to bittan (to bite), leading to Middle English betylle.

Beetle - Wikipedia

Animal stereotyping in general. Many animal stereotypes reflect anthropomorphic notions unrelated to animals' true behaviors. Carnivores, for instance, will be viewed as antagonists and their prey as the underdogs. Thus, while a shark feeds as nature intends, in folklore the shark tends to be stereotyped as "cruel", implying a conscious choice to inflict pain.
