Cisco has been working with HIMSS Analytics to inform the development of Infrastructure Adoption Model (INFRAM), a new standard for measuring adoption of hospital infrastructure technology. INFRAM helps healthcare leaders assess and map the technology capabilities required to reach their facility's clinical and operational goals--and to meet international benchmarks and standards.

Cisco Healthcare - IT Healthcare Solutions and Telehealth

Health information management (HIM) is information management applied to health and health care. It is the practice of acquiring, analyzing and protecting digital and traditional medical information vital to providing quality patient care. With the widespread computerization of health records, traditional (paper-based) records are being replaced with electronic health records (EHRs).
