Consent. An important part of partaking in virtual sex, or sexual acts, would be consent. The ethics of sexting are already being established by young people for whom consent figures as a critical concept. Distinctions between positive and negative experiences of sexting are mostly dependent on whether consent was given to make and share the images.

Virtual reality (VR) is an interactive computer-generated experience taking place within a simulated environment. It incorporates mainly auditory and visual feedback, but may also allow other types of sensory feedback like haptic. This immersive environment can be similar to the real world or it can be fantastical.
