What has become increasingly visible is the largest political scandal in the history of U.S. government. A political conspiracy at the highest levels of the prior administration and across multiple agencies within the U.S. intelligence apparatus. The scale of corruption being exposed is astounding.

Studies that seek to forecast stock price movements often consider measures of market sentiment or stock

return momentum as predictors. Recent research shows that a multiplicative combination of sentiment and momentum can help predict the return on the Standard & Poor's 500 stock index over the next month.
