that death itself may (or may not) be meaning-less. Nevertheless, it is apparent that the fact of death profoundly impacts our understanding – and experience – of meaning in life. Although it remains unknowable, death's relationship to life is essential and as profound as the relationship of darkness to light. Death need not illuminate life,

Death is the cessation of all biological functions that sustain a living organism. Phenomena which commonly bring about death include aging, predation, malnutrition, disease, suicide, homicide, starvation, dehydration, and accidents or major trauma resulting in terminal injury. In most cases, bodies of living organisms begin to decompose shortly after death.
